- ⊕ Wir gewährleisten, dass alle von uns hergestellten Produkte bei bestimmungsgemäßem Betrieb und sachgemäßer Verwendung frei von durch uns verschuldeten Material- und Verarbeitungsfehlern sind.
- ⊕ Mängelansprüche verjähren in 12 Monaten nach Lieferung. Dies gilt nicht, soweit gesetzlich längere Fristen vorgeschrieben sind, z.B. in Fällen der Verletzung des Lebens, des Körpers oder der Gesundheit, einer vorsätzlich oder grob fahrlässig begangenen Pflichtverletzung unsererseits, falls wir einen Mangel arglistig verschweigen, gegenüber

nicht gewerblichen Endverbrauchern (24 Monate) und bei gesetzlichen Rückgriffsmöglichkeiten für gewerbliche Verkäufer.

- ⊕ Wenn trotz unserer umfassenden Qualitätssicherungsmaßnahmen ein mangelhaftes Teil in den Handel gelangt, übernehmen wir bei einem durch unser Verschulden verursachten Schaden die Haftung für direkte, unmittelbare Schäden am Liefergegenstand nach den gesetzlichen Bestimmungen und die Produkthaftung nach dem Produkthaftungsgesetz. Weiterhin übernehmen wir eine Haftung für Schäden anderer Art oder für Folgeschäden/-kosten im Rahmen der gesetzlichen Bestimmungen.

## MANN-FILTER Dichtungen

### Für reines Öl und einen dichten Ölkreislauf.

MANN-FILTER Filterelemente werden je nach Anwendungsfall mit oder ohne Dichtungen für das Filtergehäuse geliefert. Ob dem Filterelement in der Faltschachtel eine oder mehrere Dichtungen beigelegt sind, erkennen Sie daran, dass am Ende der Typenbezeichnung ein kleiner Buchstabe angefügt ist, z. B. HU 718/5 x. Einigen Filterelementen liegen jedoch keine Dichtungen bei, da sie für verschiedene Einbaufälle verwendet werden. Die dafür benötigten Dichtungen entnehmen Sie bitte nachstehender Aufstellung. Diese Dichtungen müssen separat bestellt werden.

## Defect liability and product liability assurance

---

### Certified quality in all sectors.

The distinguishing feature of MANN-FILTER products is their high quality; they are to OE standard, regardless of their production site. This has been confirmed by the many quality awards received from renowned motor vehicle manufacturers, and the fact that all our locations are certified to ISO/TS16949:2002 and/or ISO 9000:2000. Based on our acknowledged high quality manufacturing and products, we are able to make the following assurances:

- ⊕ We deal with complaints carefully and without delay.
- ⊕ We warrant that all the products manufactured by us are free of material and processing defects if they are operated in the intended way and used properly.
- ⊕ Claims for defects are subject to the Statute of Limitations, ie: 12 months after delivery. This does not apply if longer periods are prescribed by law, e.g. in the event of injury to life, limb and health, a violation of contractual obligations by malice aforethought or gross negligence on our part, if we will-

fully withhold a defect, towards commercial end users (24 months) and for statutory possibilities of recourse for commercial vendors.

- ⊕ If a defective part reaches the trade despite our extensive quality assurance measures, we shall assume liability for direct damage to the object of delivery according to statutory provisions and also product liability according to the Product Liability Act in the event of damage caused through fault of ours. In addition, we assume liability for damage of other kinds or for consequential damage/costs within the framework of the statutory provisions.

**The prerequisite for claims to defect liability and/or other claims to damage is, amongst other things, compliance with the installation/maintenance and replacement directives prescribed or recommended by the vehicle/engine or appliance manufacturer.**

## MANN-FILTER gaskets

### For clean oil and leak-proof oil circuit.

MANN-FILTER filter elements are delivered with or without gaskets, according to their application. You can tell whether one or more gaskets have been packed into the carton by the presence of a letter at the end of the type number, e. g. HU 718/5 x. Some filter elements are delivered without gaskets because they are used for different types of installation. The gaskets required for these filter elements are listed below. These gaskets must be ordered separately.

### Certificati di qualità in ogni settore.

I prodotti MANN-FILTER si contraddistinguono per un elevato standard di qualità. Indipendentemente dallo stabilimento produttivo, questo corrisponde sempre alla qualità fornita ai clienti di primo equipaggiamento che trova conferma in una serie di riconoscimenti di qualità da parte di importanti produttori di automobili e certificati di tutti i paesi in base alla norma ISO/TS16949:2002 risp./secondo norma ISO 9000:2000. In base al riconosciuto elevato livello qualitativo della nostra produzione e dei nostri prodotti, possiamo affermare quanto segue:

- ⊕ I reclami per difetti cadono in prescrizione dopo 12 mesi dalla consegna. Questo non vale nel caso in cui, per legge, siano previsti periodi più lunghi, ad esempio nei casi di pericolo di morte, di lesioni o di danni alla salute, una violazione dei doveri intenzionale o dovuta a negligenza da parte nostra, nel caso in cui omettiamo in malafede un difetto nei

confronti di utenti finali non commerciali (24 mesi) e nel caso di possibilità di diritto di recesso previsto a norma di legge per gli acquirenti industriali.

- ⊕ Se, nonostante tutte le nostre assicurazioni di qualità, in commercio dovesse arrivare un prodotto difettoso, ci assumiamo la responsabilità per i danni diretti e immediati all'oggetto della fornitura causati da una nostra mancanza, in conformità con le disposizioni legali. Ci assumiamo inoltre la responsabilità in merito al prodotto in base alla legge corrispondente. Ci assumiamo inoltre la responsabilità per danni di altro genere o per danni/costi sequenziali nell'ambito della normativa legale.

**Presupposto per i reclami dovuti a difetti e/o i diritti al risarcimento dei danni è, tra le altre cose, l'osservanza delle istruzioni di montaggio, manutenzione e sostituzione fornite o consigliate dal produttore di automobili, motori o dispositivi.**

## Guarnizioni MANN-FILTER

### Per olio pulito e un circuito dell'olio a ottima tenuta.

A seconda degli impieghi, le cartucce MANN-FILTER vengono fornite con oppure senza guarnizioni. Per sapere se la cartuccia in scatola è dotata di una o più guarnizioni, basta fare attenzione alla lettera minuscola alla fine della denominazione di modello, p. es. HU 718/5 x. Alcune cartucce, comunque, non sono dotate di guarnizione, poiché per queste sono previsti impieghi differenti. L'elenco qui sotto riportato indica le guarnizioni adatte per tali cartucce. Queste guarnizioni devono essere ordinate separatamente.

## Juntas MANN-FILTER

### Para un aceite limpio y un circuito de aceite estanco.

Los elementos filtrantes MANN-FILTER se suministran según el caso sin juntas de estanqueidad para la carcasa, o con ellas. En este segundo caso, Vd. identificará la existencia de una o varias juntas en la caja del filtro por la presencia de una letra minúscula tras la denominación del tipo del filtro, por ejemplo HU 718/5 x. En el caso de determinados filtros, las juntas nunca se incluyen, ya que se usan para varias aplicaciones, y han de ser objeto de un pedido aparte. Dichas juntas se especifican a continuación.

## Acord privind deficiențele și răspunderea asupra produselor

### Calitate certificată în toate domeniile.

Produsele MANN-FILTER se disting printr-un standard de calitate ridicat. Indiferent de locul de producție, acestea corespund calității furnizate către beneficiarii echipărilor inițiale, care își găsește confirmarea într-o mulțime de distincții de calitate ale celor mai însemnați producători de automobile și în certificările tuturor amplasamentelor cu ISO/TS 16949:2002, respectiv conform ISO 9000:2000 și urm. Pe baza recunoașterii acestui înalt nivel calitativ al produselor noastre, putem formula următoarele acorduri:

- ⊕ Prelucrăm reclamațiile urgent și cu minuțiozitate.
- ⊕ Garantăm că toate produsele fabricate de noi nu prezintă defecte de material sau de prelucrare în cazurile de utilizare conformă cu destinația.
- ⊕ Eventualele pretenții privind deficiențele se prescriu în 12 luni de la livrare. Acest lucru nu este valabil în cazul în care legea prevede termene mai lungi, de exemplu în cazurile de periclitate a vieții, a leziunilor corporale sau a afecțiunilor asupra sănătății, a încălcării premeditate sau din neglijență a obligațiilor care ne revin, pentru tănuirea cu premedi-

tare a unor deficiențe, față de beneficiari finali din domeniul neprofesional (24 de luni) și la posibilitățile legale de recurs pentru vânzătorii de profesie.

- ⊕ Dacă, în ciuda amplexelor noastre măsuri privind asigurarea calității, un lot cu deficiențe ajunge în comerț, preluăm răspunderea în cazul unor daune provocate din vina noastră pentru pagubele directe și nemijlocite asupra obiectului livrării, în conformitate cu dispozițiile legale de răspundere asupra produselor. Ne asumăm răspunderea pentru pagubele de alte genuri sau pentru daunele provocate, în cadrul dispozițiilor legale.

**Condiția pentru emiterea de pretenții privind deficiențele și/sau alte genuri de despăgubiri, este, printre altele, respectarea prescripțiilor producătorilor de vehicule/motoare, respectiv aparate și a regulilor recomandate de montare, întreținere și înlocuire.**

## Garnituri MANN-FILTER

### Pentru ulei curat și pentru circuitul etanș al uleiului.

Elementele filtrante MANN-FILTER sunt livrate în funcție de felul de utilizare cu sau fără garnituri pentru carcasa filtrului. Dacă elementului filtrant din cutia pliabilă îi sunt adăugate una sau mai multe garnituri, recunoașteți prin faptul că la sfârșitul codului filtrului respectiv este adăugată o cifră mică, spre exemplu HU 718/5 x. Unor elemente filtrante nu le sint adăugate garnituri pentru că acestea sunt folosite în diferite moduri de montare. Garniturile necesare pot fi căutate în tabela de mai jos. Aceste garnituri trebuiesc comandate separat.

## Kellékszavatossági és termékfelelősségi nyilatkozat

Tanúsított minőség minden területen.

Egyik megkülönböztető tulajdonsága a MANN-FILTER termékeknek a magas minőségük, a gyári minőségük (OE standard), függetlenül a termelés helyétől. Ezt támasztja alá az a számtalan minőségi díj, amelyet neves gépjárműgyártók adtak és az a tény, hogy minden gyártóhelyünk minősített ISO/TS 16949:2002 és/ vagy ISO 9000:2000 által. A termelésünk és a termékeink elismerten magas minőségi színvonala alapján a következő nyilatkozatot tesszük:

- + A panaszokat haladéktalanul és alaposan megvizsgáljuk.
- + Garanciát vállalunk azért, hogy a rendeltetészerű használat és a megfelelő alkalmazás esetén minden, általunk gyártott termék mentes az anyag-és feldolgozási hibáktól.
- + A kellékszavatossági igények a szállítást követő 12 hónap alatt évülnek el. Ez nem vonatkozik arra az esetre, ha a törvény hosszabb elévülési időt ír elő, pl. életveszély, testi sérülés vagy egészségkárosodás bekövetkezése esetén, vagy a szerződéses kötelezettség általunk történő szándékosan vagy súlyosan gondatlanul való megsértése esetében, illetve ha mi egy kellékhibát csalárd módon elhall-

gatunk a kereskedelmi végfelhasználók előtt. Ebben az esetben az elévülési idő 24 hónap. A 12 hónapos elévülési idő nem vonatkozik arra az esetre sem, ha az ipari felhasználóknak a törvény viszontkereseti lehetőséget biztosít.

- + Amennyiben az átfogó minőségbiztosítási intézkedéseink ellenére egy kellékhibás alkatrész kereskedelmi forgalomba kerül, mi átvállaljuk a törvényi rendelkezések szerint a szolgáltatott tárgyhoz kötődő közvetlen károkért fennálló felelősséget és a termékfelelősségi törvény alapján fennálló termékfelelősséget. Ezenfelül a törvényi rendelkezéseknek megfelelően egyéb / következményi károkért is felelősséget vállalunk.

**Bármilyen kárigény érvényességének előfeltétele, hogy – egyebek mellett – a gépjármű/motor vagy berendezés gyártója által javasolt beszerelési, karbantartási és kicserélési útmutatóknak megfelelően kell eljárni.**

## MANN-FILTER tömitések

### A tiszta olajért és a szivárgásmentes olajkörért.

A MANN-FILTER-nél a szűrőbetéteket tömitéssel vagy tömités nélkül csomagoljuk az alkalmazástól függően. A termék kódja végén található betű jelzi, ha egy vagy több tömités csomagolva lett a termék mellé: pl.: HU 718/5 x. Néhány szűrőbetét tömités nélkül csomagolt, ugyanis többféle alkalmazáshoz megfelelő. Ekkor a tömitéseket külön kell megrendelni.

Πιστοποιημένη ποιότητα σε όλους τους τομείς.

Τα προϊόντα MANN-FILTER ξεχωρίζουν για τα υψηλά ποιοτικά τους στάνταρ. Αυτό ισχύει ανεξάρτητα από το σημείο παραγωγής και ισχύει απεριόριστα για την ποιότητα που παρέχουν στο βασικό εξοπλισμό των πελατών, πράγμα που επαληθεύεται από το πλήθος των διακρίσεων που έρχονται από σημαντικούς κατασκευαστές οχημάτων, καθώς και από τις πιστοποιήσεις κατά ISO TS 16949:2002 και/ή ISO 9000:2000, για όλα τα σημεία παραγωγής. Με βάση αυτό το αναγνωρισμένο υψηλό επίπεδο ποιότητας της παραγωγής και των προϊόντων μας μπορούμε να αναλάβουμε τις εξής δεσμεύσεις:

- + Επεξεργαζόμαστε τα παράπονα αμέσως και με μεγάλη προσοχή
- + Εγγυόμαστε ότι όλα τα προϊόντα που κατασκευάζονται από εμάς δεν παρουσιάζουν βλάβες υλικού ή λειτουργίας που να οφείλονται σε εμάς, εφόσον η χρήση τους γίνεται σύμφωνα με τους κανονισμούς και με τον κατάλληλο τρόπο.
- + Απαιτήσεις σχετικά με ελαττώματα παραγράφονται 12 μήνες μετά την παράδοση. Αυτό δεν ισχύει εφόσον προβλέπονται μεγαλύτερα διαστήματα από το νόμο, π.χ. σε περιπτώσεις τραυματισμού ή βλάβης της υγείας, σε περίπτωση δικής μας ευθύνης εάν προκαλέσουμε βλάβη σκόπιμα ή από βαριά αμέλεια και σε περίπτωση που αποσιωπήσουμε δολίως

κάποιο ελάττωμα. Επίσης δεν ισχύει απέναντι σε μη επαγγελματίες καταναλωτές (24 μήνες) και σε περιπτώσεις νομικής αναγωγής για επαγγελματίες πελάτες.

- + Εάν παρά τα σημαντικά μέτρα διασφάλισης της ποιότητας που λαμβάνουμε κυκλοφορήσει ένα ελαττωματικό τμήμα στο εμπόριο, αναλαμβάνουμε την ευθύνη για τις άμεσες βλάβες που προκλήθηκαν από αυτό εξαιτίας μας στο αντικείμενο που το δέχτηκε, σύμφωνα με τις νομικές διατάξεις και την ευθύνη προϊόντος και σύμφωνα με το νόμο περί ευθύνης προϊόντων. Επίσης αναλαμβάνουμε την ευθύνη για βλάβες άλλου τύπου ή για έμμεσες απώλειες και έξοδα, στα πλαίσια των νομικών διατάξεων.

Προϋπόθεση για τις απαιτήσεις περί ευθύνης σχετικά με ελαττώματα και/ή με λοιπή αποκατάσταση ζημιών είναι μεταξύ άλλων ή τήρηση των προβλεπόμενων ή συνιστώμενων προδιαγραφών τοποθέτησης, συντήρησης και αλλαγής από τους κατασκευαστές οχημάτων, κινητήρων ή συσκευών.

Her sektörde kalitemiz sertifikalandırılmıştır.

MANN-FILTER ürünleri yüksek kalite standartları ile kendisini kabul ettirmektedir. Bu yüksek kalite, imalat yerinden bağımsız bir şekilde, araçlarındaki ilk donanımı sağlayan müşterilere teslim edilen kalitededir ve bu kalite, birçok önemli araç üreticisinden birçok kalite ödülü almış ve tüm imalat yerlerine ISO/TS 16949:2002 ve/veya ISO 9000:2000 ve müteakip standartlar verilerek tasdik edilmiştir. Kendini kabul ettirmiş bu kalite seviyesi bazındaki imalatımız ve ürünlerimiz sayesinde, aşağıdaki açıklamayı ve garantiyi verebiliyoruz:

- + Şikayetleri derhal ve itinayla işliyoruz.
- + Tarafımızdan üretilmiş olan tüm ürünlerin, amacına uygun ve gerektiği şekilde kullanımı halinde, tarafımızdan sebep olunmuş hiçbir malzeme ve işçilik hatası içermediğini garanti ediyoruz.
- + İmalat hatası ile ilgili hak ve talepler, mal tesliminden 12 ay sonra zaman aşımına uğrar. Bu kural, yasal olarak daha uzun zaman önelleri öngörölmüş olan durumlarda geçerli değildir, örn. cana, vücuda veya sağlığa zarar gelmesi, tarafımızdan kasıtlı veya ağır kusurlu olarak vazifemize aykırı davranmış olmamız, mevcut bir hatayı veya eksiği isteyerek saklamış

ve bildirmemiş olmamız durumunda ticari olmayan tüketicilere karşı (24 ay) ve yasal geri alma/çağırma olanaklarında ticari satıcılara karşı.

- + Eğer kapsamlı kalite güvenliği önlemlerimize rağmen hatalı bir parça piyasaya çıkacak olursa, bizim kusurumuzdan ortaya çıkan zarar durumunda, ilgili üründeki doğrudan veya dolaylı hasarın sorumluluğunu yasal yönetmeliklere göre ve ürün sorumluluğunu ise ürün sorumluluk kanununa göre üstleniyoruz. Ayrıca diğer tür hasarlar için veya müteakip hasarlar/masraflar için, yasal uygulamalar çerçevesinde sorumluluk üstleniyoruz.

**İmalat hatası sorumluluğu ve/veya başka tazminat hak ve talepleri için, araç/motor veya cihaz üreticisinin öngörmüş olduğu veya tavsiye ettiği montaj/bakım ve değiştirme yönetmeliklerine de uyulmuş olması şarttır.**

## MANN-FILTER contaları

### Temiz yağ ve kaçaksız bir yağ devresi için.

MANN-FILTER elemanları, kullanım durumuna göre filtre gövdesi için olan conta ile birlikte veya contasız teslim edilir. Kutu içindeki filtre elemanına bir mi yoksa birden fazla mı conta ilave edildiği, tip tanımının sonuna bir küçük harf ilave edilmiş olmasından anlaşılır, örn. HU 718/5 x. Fakat bazı filtre elemanlarına, farklı montaj durumları için kullanıldıklarından, conta ilave edilmemiştir. Bu durumlarda gerekli olan contalar için, müteakip listeye bakılmalıdır. Bu contaların ayrıca sipariş edilmesi gerekmektedir.
